This course will start on **September 30, 2024** with recurring sessions:

<https://www.coursera.org/learn/macroeconomic-financial-accounts-course-2>

This Course 2 is a sequel to [Course 1](#) on Macroeconomic Financial Accounts and offers a more advanced analysis of Institutional Sectors – lead sponsors are the Bank for International Settlements, the European Central Bank, the Bank of Italy and the OECD. After the first preparatory week, each following module will delve into one specific institutional sector of the national economy, i.e. Financial Corporations, Non-Financial Corporations, Households (and Non-Profit Institutions), and Government. Transactions and positions of resident sectors with non-residents are also covered, as well as the reference to the Balance of Payments Manual of the IMF. The lectures, tutorials, and activities guide participants step-by-step through the characteristics of the Institutional Sectors. The basic reference for the course is the OECD publication [Understanding Financial Accounts](#). The next Course 3 will complete the Specialization in Macroeconomic Financial Accounts as a Coursera mini-master.

Welcome Addresses

Antonella Polimeni, Professor, Rector of Sapienza

Fabrizia Lapecorella, OECD Deputy Secretary General

Presentation of the Course

Giuseppe De Arcangelis, Professor of International Economics, Sapienza Project Leader

Daniele Fano, Economist, Co-leader and Instructor, Skills Together
